

Get Your Tournament Published In the Nation's #1 Softball Publication!

Send all information for publication in Softball Magazine to: Nancy Robinson, Editorial Content Manager
email: nancy.r@softballmag.com
Telephone: 877-453-3711; Fax: 321-453-0766
Address: 400 Magnolia Avenue
Merritt Island, Florida 32952

To get your tournament information covered in Softball Magazine, use the quick information below and email it in! If you don't have Internet access, call Nancy Robinson toll free 877-453-3711 and she can help you get the information in.

Be sure to include:

- Date of tournament, class(es), where it was played and what association it was played under.
- Tournament bracket for each class.
- Team picture of 1st - 4th if possible, but at least first and second - identify each picture with team name.
- Full names and team name for the MVP, and any other player awards per class along with All Tournament Team selections.
- If possible, game score sheets of the championship game.
- Coaches contacts for the first through fourth place team if possible, but at least first and second. The email and telephone numbers of the coaches will allow us to get quotes from them regarding their team, the tournament and a chance to mention their sponsors.
- A quote from the Tournament Director, mentioning the tournament sponsors and teams.
- If prizes were awarded, list them and who or what company provided them.

Photographic Tips:

- Team pictures work best! Fill the frame up as fully as possible, leaving as little open space as possible.
- Ask players in the pictures to tip their hats back to reduce shadows on their faces.
- Focus on faces so that they will be recognizable.
- Always take at a minimum two pictures.
- Try to get both the runners-up and the championship team pictures. If you are the director, let the teams know you need their pictures and take them prior to the championship game.
- Set your digital camera to the highest setting possible.
- Once you have your picture, identify the photo (team, individual's name, etc.), and email the "raw" photo, in other words, exactly as it comes off of your camera.
